

ILLNESS

When pupils are taken suddenly ill in school, they shall be sent or escorted to the nurse's office. If the nurse is not in the medical office, the pupil shall be sent or taken to the building principal's office. In general, the same procedures that apply to accidents shall apply to sudden pupil illness. The Chief School Administrator, in cooperation with the medical inspector, shall implement this policy.

Control of Contagious Diseases or Conditions

In order to protect the health of the pupils in our schools, all regulations of the state department of education, the state department of health and the local board of health shall be scrupulously observed, particularly those dealing with contagious or infectious diseases or conditions. Pupils who have been absent because of contagious or infectious diseases or conditions must present a certificate of recovery from a licensed physician or be examined by the medical inspector.

The school nurse shall observe pupils who show evidence of communicable disease and recommend their exclusion to the school principal. Recommendations shall be consistent with reporting requirements on communicable diseases as set forth in the New Jersey Health Code. Such pupils shall be isolated in the nurse's office until a parent/guardian picks them up, and any necessary measures have been taken to prevent spread of the infection. The school nurse, under the direction of the medical inspector, shall instruct all teachers in the symptoms of the most common diseases or conditions at least once a year.

Any student with HIV infection or AIDS or who lives with or is related to someone with HIV or AIDS shall not be excluded from general education, transportation services, extracurricular activities, athletic activities, assigned to home instruction or classified as eligible for special education because of the HIV infection. The school nurse shall recommend the exclusion of any individual with weeping skin lesions that cannot be covered.

In addition to the review of health and safety measures required by law, the school nurse shall individually instruct teachers from whose classrooms a pupil has been excluded in the symptoms of the disease for which the pupil was excluded. Student rights and confidentiality shall be protected in accordance with law. No teacher shall attempt to diagnose any illness of a pupil, but shall refer suspected cases to the nurse immediately.

Handling Blood and Body Fluids

The Chief School Administrator and medical inspector shall develop detailed routine procedures based on New Jersey administrative code and guidelines from the Centers for Disease Control for proper handling of blood and body fluids resulting from illness/accidents in the schools. These procedures shall be disseminated to all district staff and volunteers.

The medical inspector shall report all cases of communicable disease to the local board of health as required by law.

PROCEDURES FOR ILLNESS: STUDENTS WHO MUST BE RETURNED HOME DURING THE SCHOOL DAY

- A. Teachers suspecting student illness and/or addressing a student complaint of illness shall refer the student to the school nurse.
- B. The nurse shall recommend the necessary action regarding sick students to the principal.
 - 1. The nurse shall exercise her own judgment and notify the main office as deemed appropriate.
 - 2. Under no circumstances shall non-professional personnel recommend or execute a particular course of action in the handling of student illness. However, in the absence of the nurse, a secretary may call the child's parents/guardians.
- C. If the a student must, for any reason, be returned home during the school day, The principal or school nurse shall first contact the parent/guardian and request that the student be picked up.
 - 1. If the parent/guardian is unable to be contact the emergency contact person (people) will be contacted to:
 - a. Assist in contacting the parent/guardian;
 - b. Assume responsibility for the student.
 - 2. The student may remain at school in the nurse's office until the parent/guardian is contacted, when it is safe and in the best interest of the student. On occasion, students may wait for a parent besides the main office.
 - 3. For serious illness the school nurse shall contact emergency medical services.
 - a. Every effort shall be made to contact the parent/guardian in cases of serious illness and/or hospitalization, immediately.
 - b. The nurse shall notify the building principal and the chief school administrator immediately.
